

Bar

Trolleys

Bar is a large trolley for handling and storing profile bars during the cutting phase.

Pivoting wheels

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

Surface in nonslip PVC

The surfaces are covered with soft nonslip PVC, which provides safe support for carrying the profiles.

Adjustable vertical containment

System that allows bars to be housed on support surfaces.

**BAR / TROLLEYS****CHARACTERISTICS**

Soft nonslip PVC contact surface	●
Plug-in storage of unloaded trolleys	●
4 swivel casters, 2 of which have locking stops (mm)	Ø = 150
Adjustable centre supports	●
Removable bar containment device with two preset heights	●
Length (mm)	4.150
Width (mm)	852
Height (mm)	982
Load capacity (kg)	600
Weight (kg)	80
