

Bar

Trolleys

Big size trolley designed for transportation and storage of profiled bars during the cutting phase.

**Adjustable vertical containment**

System that allows bars to be housed on support surfaces.

**Surface in nonslip PVC**

The surfaces are covered with soft nonslip PVC, which provides safe support for carrying the profiles.

**Pivoting wheels**

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

BAR / TROLLEYS

CHARACTERISTICS

Soft PVC contact surface	●
Plug-in storage of unloaded trolleys	●
4 swivel casters, 2 of which have locking stops (mm)	Ø = 150
