

Stack

Trolleys

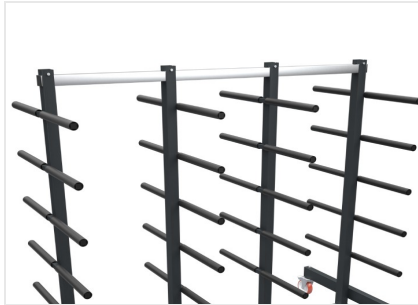

Stack is a trolley for handling and storing profiles horizontally.

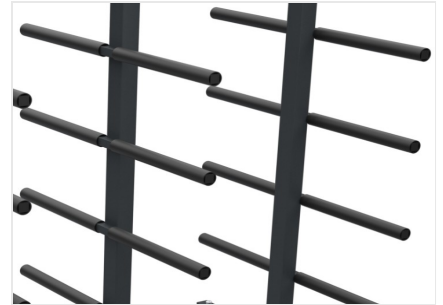

Pivoting wheels

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

Adjustable centre supports

The adjustability of the centre supports allows extrusions of different lengths to be accommodated, facilitating their identification.

Contact surfaces

All contact surfaces are coated with soft nonslip PVC, which ensures the integrity of the surfaces in the housing stages.

**STACK / TROLLEYS****CHARACTERISTICS**

Soft nonslip PVC contact surface	●
Number of compartments	10
4 low-wear swivel casters, 2 of which with locking (mm)	Ø = 125
Adjustable centre supports	●
Length (mm)	1.800
Width (mm)	860
Height (mm)	1.950
Load capacity (kg)	500
Weight (kg)	55

Included ● Available ○
