

Transit YP

Trolleys

Transit YP is a trolley for handling and storing wooden frames and glazing on the assembly lines.

Pivoting wheels

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

Contact surfaces

All side and lower contact surfaces are coated with soft nonslip PVC, which ensures the integrity of the surfaces in the housing stages.

Partitioning

The carriage has doubled partitioning that allows high increase in the number of transportable workpieces and also considerable savings in terms of occupied space.

TRANSIT YP / TROLLEYS

CHARACTERISTICS

Compartment depth (mm)	999
Base (mm)	1.240 x 1.010
Vertical support, height (mm)	1.305
Number of compartments	10 x 2
Soft nonslip PVC contact surface	●
Wide supporting base	●
Handle for moving	●
4 swivel casters, 2 of which have locking stops (mm)	Ø = 125
Weight (kg)	85
Load capacity (kg)	500

Included ● Available ○
