

## **WT 450**

### Trolleys

Trolley used at the end of the line as a single tool for storing the finished doors and windows in the factory and transporting them to the worksite.

### **Preparation for lifting**

It allows it to be lifted easily by forklift as it is equipped with a fork housing. It also has hooks that ensure lifting by crane.

### **Preparation for transport**

Very easily and quickly, the pivoting wheels with brakes can be removed so that the carriage can rest on its own rubber feet to ensure safe truck transport.

### **Surface in nonslip PVC**

The working surfaces are covered with soft nonslip PVC that provides secure support when positioning the door.

### **Pivoting wheels**

Equipped with 4 pivoting wheels, 2 of which with brakes, that ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

**WT 450 / TROLLEYS****CHARACTERISTICS**

Lifting and suspension hooks	●
Modular structure base (mm)	970 x 1.730
Modular structure height (mm)	1.805
Removable wheels for trucking	●
Soft PVC contact surface	●
4 swivel casters, 2 of which have locking stops (mm)	Ø = 125
Load capacity (kg)	400
Weight (kg)	77

Included ● Available ○
